

PeopleVine Events – Before, During and After

PEOPLEVINE PLATFORM

A single platform for marketing teams to engage with their consumers. PeopleVine is the only platform to capture 35 touchpoints in real-time allowing you to enable action based marketing through your customer's journey.

Behind it all is a CRM capturing every interaction back to a single profile. Further enabling you to see consumer behavior over time, while leveraging the data for automated interactions and segmentation.

Run the Entire Experience in One Platform

PeopleVine Events & Ticketing allows you to operate every aspect of an event in a single platform. Through our platform, you can:

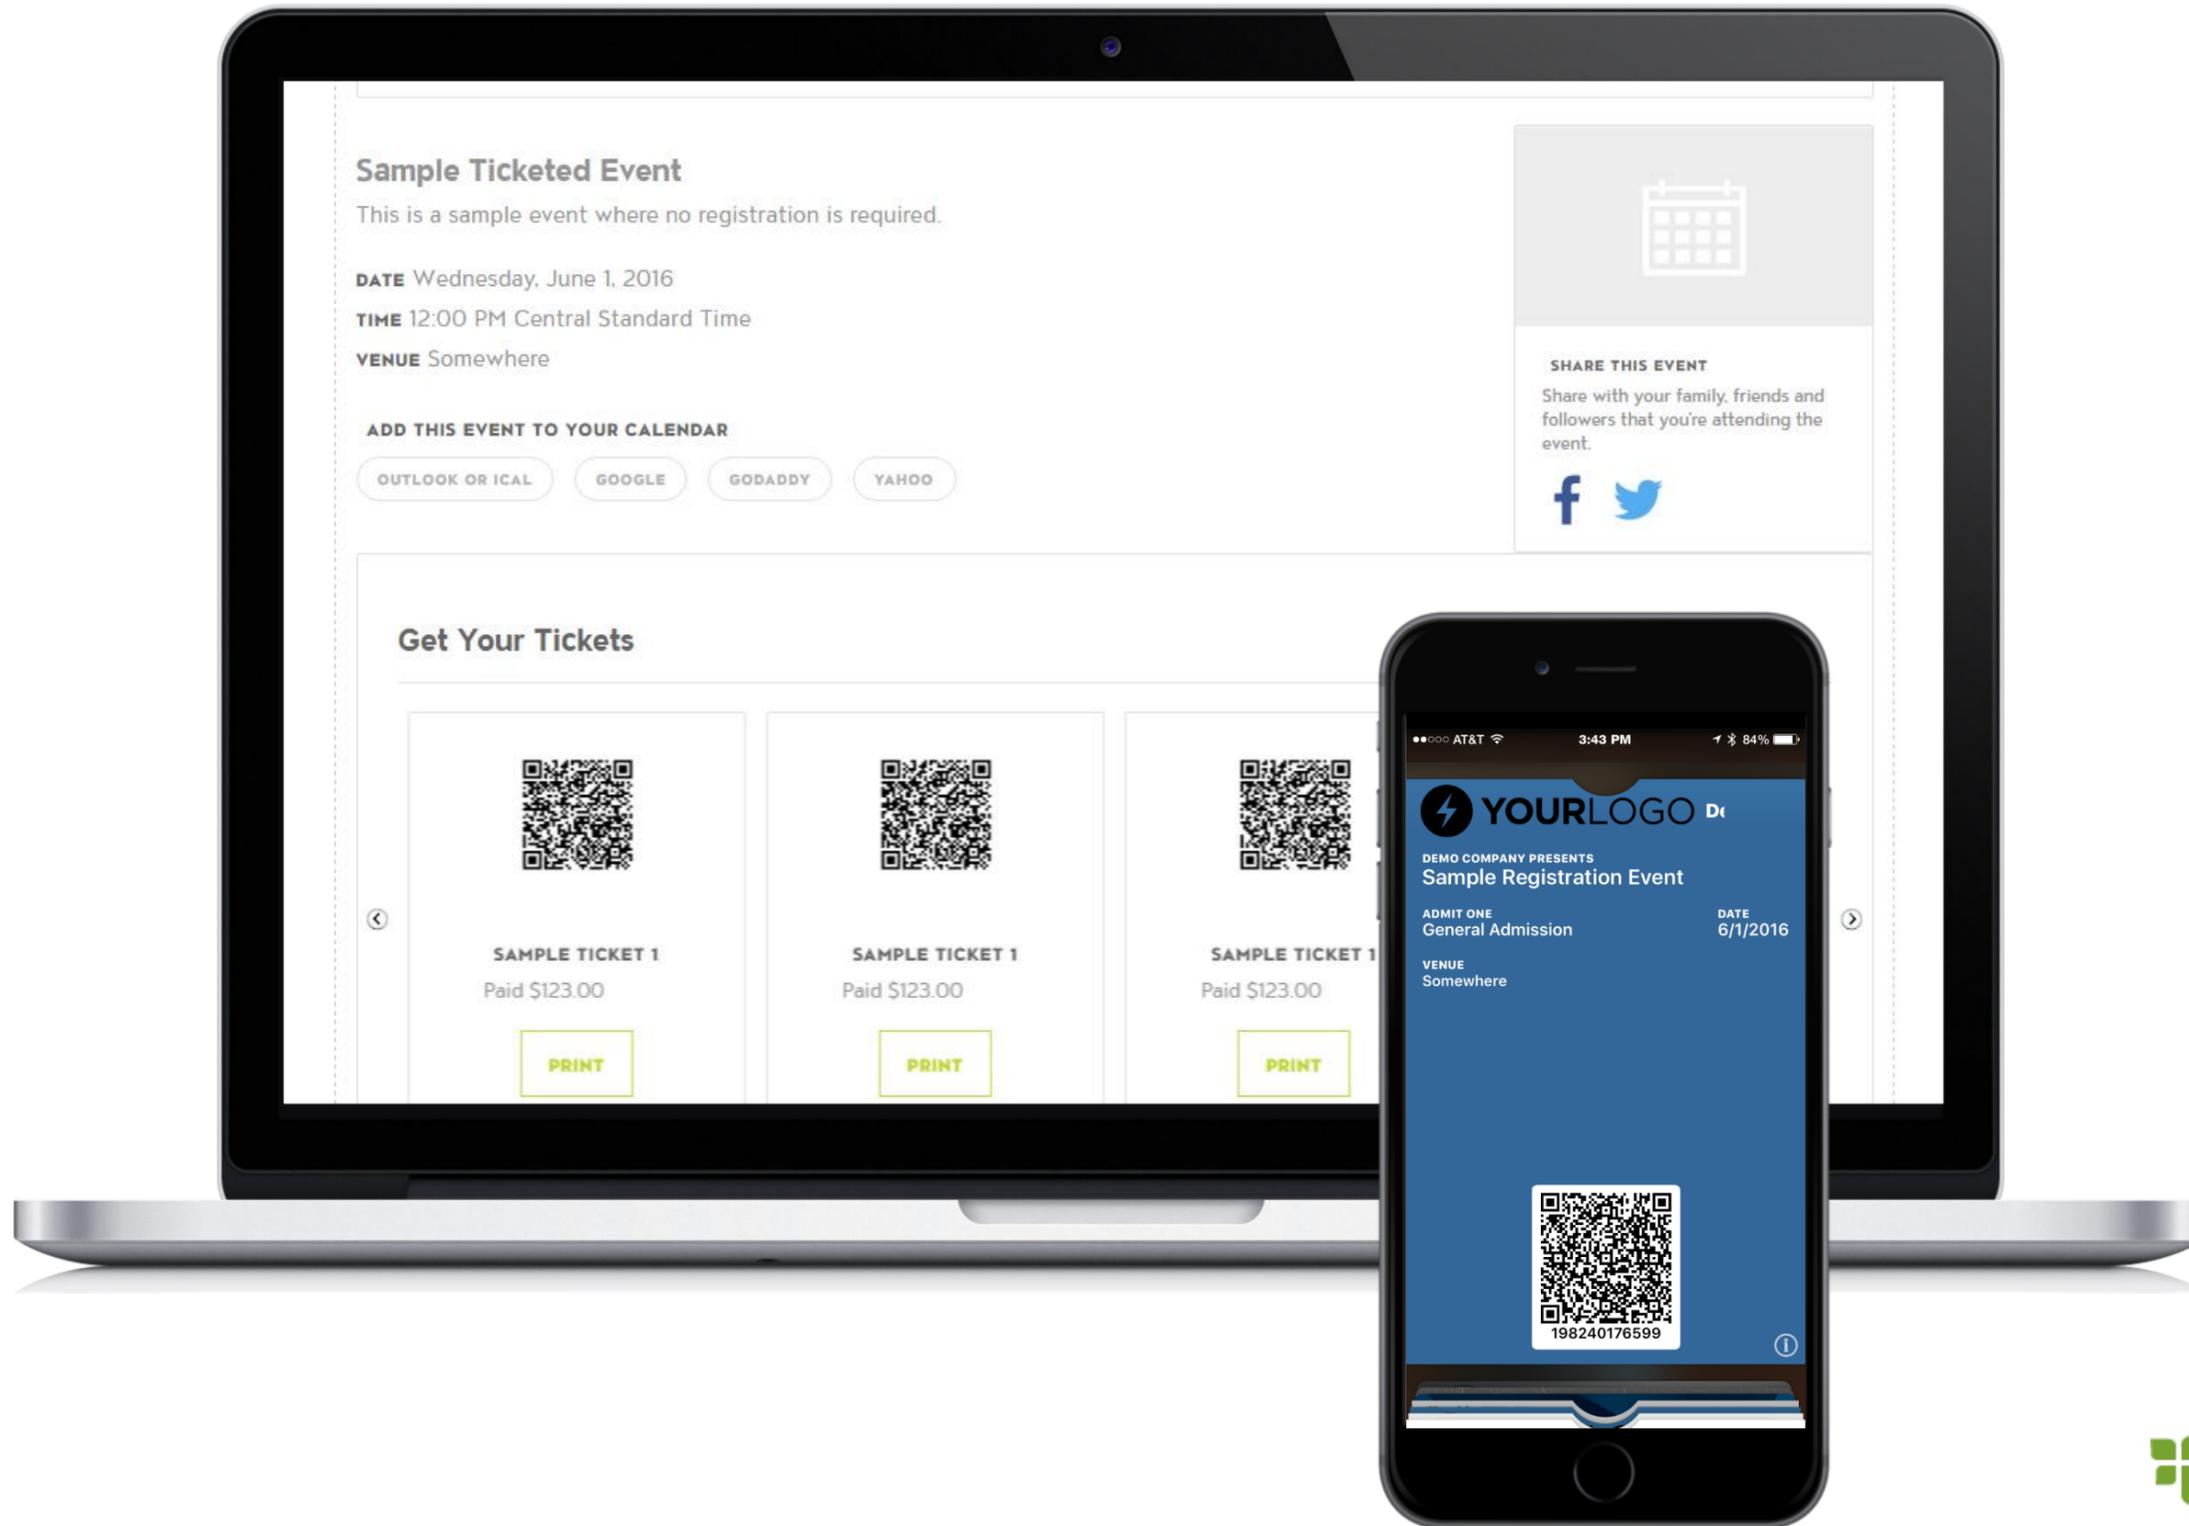

- Setup online registration, charge for tickets or send out RSVP invitations
- Full scanning and check-in with digital tickets integrated into Apple Wallet
- Automatic #tag monitoring to encourage social sharing of photos
- Email and SMS campaigns to engage before, during and after an event

Out of the box, we provide you with the screens for registration, pay for tickets, my account, manage attendee list, general analytics and the tools to scan and check-in on the spot. PeopleVine Events and Ticketing is the future of hosting engaging events.
